### CIRPASS: Shaping the future of the Digital Product Passport

Tuesday 13 December 2022  
10:30 - 12:30 CET  
Virtual (Free)

  Funded by  
the European Union

“CIRPASS - Shaping the future of the Digital Product Passport”, will bring together European industries, policymakers, R&D centres, standardisation organisations, circular economy and sustainability consultancies, digital solution providers and more, to discuss the future development of the Digital Product Passport (DPP).

Register now: <https://tinyurl.com/34t393zm>

 The online live event will take place on **Tuesday, 13 December between 10h30-12h30 CET**, and will count with representatives of the [CIRPASS - Digital Product Passport](#) consortium to present to the public the project's objectives and planned stakeholder engagement activities, as well as host an interactive panel discussion followed by Q&As.

CIRPASS is an EU-funded project that brings together 30 experienced partners to prepare the ground for the gradual piloting and deployment of DPPs from 2023 onwards, focusing on developing a roadmap for prototypes in three value chains: electronics, batteries and textiles.
